 - Cashless payments also made easy with fingerprint reader and end-to-end encrypted card reader
 - 3D Barcode Scanner
 - Expansion unit option to accept cash and print receipts
- Customizable advertisements and category buttons
- Intuitive customer experience
- Quick install with a wireless router or OptConnect Cellular Connection

365 NanoMarket™ Tablet

The 365 NanoMarket, cashless tablet-based device is great for your smaller locations or can be used as another self-checkout point

- Multiple payment options including Touchless Technology via the 365Pay App and Credit Card
- Lower cost than traditional MicroMarkets
- Customizable advertisements and category buttons
- Three Easy Connectivity Options:
 - Wifi connection via NanoConnect
 - Cellular connection via ATT SIM Card (provided by 365)
 - Ethernet Connection

365 PicoPlatform

- The PicoPlatform is our smallest but most versatile technology that can be used on a vending machine (PicoVend) or on a cooler (PicoCooler)
 - Multiple payment options including Touchless Technology via the 365Pay App and Credit Card
 - Interactive, dynamic touchscreen display
 - Connectivity and payment versatility
 - Upgrade to standard vending machines
 - On-screen promotions and advertising opportunities
 - PicoCooler opens new options for semi-public areas with enhanced locking and unlocking security

365Dining System

- Stay open by converting your Cafeteria to Self-Service
- 365Dining systems are flexible making them a great fit for onsite dining operators in corporations, schools, and healthcare
- Multiple payment options including Touchless Technology via the 365Pay app and NFC payment terminals

Intuitive Cashier Mode

- The fast, flexible, intuitive system is easy to learn with a flexible display enabling cashiers to choose the menu layout that best suits them for smoother service and shorter lines

Self-Service at it's Finest

Consumers simply grab their meal, scan their item or search the database, pay and go. The easiest and most efficient way to eliminate long lines and keep your customers happy.

- Order Ahead - offers both 365Pay app and web ordering to boost your consumer convenience
- Cashier Mode - staffed station to accept cash during peak times
- Now Serving Screens - keeping consumers updated on order status at-a-glance

365Pay App & 365Beacon

- Offer a Touchless Technology solution to your clients!
- Seamlessly streamlines the check out process by allowing consumers to scan and pay for products easily via a Bluetooth connection to the Connect & Pay app
 - Works with Kiosks, Tablets and 365Dining
 - Provide more ways to pay
- Going Cashless with Touchless Benefits:
 - More spending
 - Enhances customer experiences with promotions and savings

The 365Pay app gives your customers the ability to:

- Add funds
- View purchase history
- Pay across multiple locations
- Earn loyalty points and savings

The 365Pay app provides YOU with many opportunities, such as:

- Savings on credit card processing rates
- Customer managed accounts
- Loyalty program
