

All-in-one Dining Technology Platform

Offer flexibility to both operators and businesses that serve consumers' modern-day dining needs.

► Learn more about 365 Dining

- ReadyFlex POS technology that can transition between self-service and cashier modes as needed
- Order management system to connect front and back-of-house operations
- Mobile ordering & loyalty via 365Pay App
- OrderAhead
- Integrated food lockers
- Self-service kiosks
- Catering & hospitality management
- Single back-end management system that works across multiple offerings (dining, micro markets, vending, etc.)

The 365Dining platform offers a refreshed approach to the dining experience for both operators & consumers.

The platform integrates multiple elements with the goal of creating a profitable operation that delivers high on client satisfaction.

The 365Dining package includes POS systems, self-service kiosks, kitchen order management systems, mobile ordering and pickup via the 365Pay app, food lockers, catering, and one back-of-house management system for all your business management needs.

365Dining can help revolutionize your dining business.
