

MM6 Markets & MM6 Mini

The newest self-checkout kiosks with trusted V5 software

MM6 for Markets

A large-sized kiosk ideal for high-touch, high-traffic Micro Market locations.

- Shortens service time with “book-like” chassis and practical tool kit
- Increases system uptime with built-in battery backup
- Captures sales with flexible payment including option for cash, optimized form factor, and ultra-wide-angle camera lens to monitor purchases

MM6 Mini for Markets

A kiosk designed with Micro Market space and volume in mind

- Optimizes space in locations with size limitations with its compact footprint and wall mount capability
- Provides consumers a sleek modern user interface for self-service check-out
- Captures more consumer transactions with a wide choice of payment options and ultra-wide-angle camera lens
