

Round Up for Charity

Create goodwill with your clients through charitable giving.

The Round Up For Charity feature on ADM allows consumers to donate a portion of their purchase to a registered 501(c)(3) charity, foundation, or cause that is chosen by each location's operator in advance. Operators can associate a single charity per location, and consumers can then round up their transaction to the nearest whole dollar to donate to the chosen charity.

▶ **Ask your clients to identify causes that are meaningful to their organization and employees!**

▶ **Integrated with Benevity**

Benevity is a Calgary-based company that provides charitable donation-management and grant-management platforms. Benevity is trusted by non-profits and causes globally to power and deliver meaningful and impactful programming
